

Fairer Health  
For All

Do you have a project idea for the Fellows that aligns with the CVD and Diabetes prevention/  
CORE20PLUS5/Fairer Health for All priorities below?

**Working with partners to tackle the Wider, Social and Commercial Determinants of Ill Health:**

- Increase our focus on **Employment** and Health.
- Mitigate the impact of **Poverty** on health.
- Contribute to the development of **Housing** and Health integrated pathways.
- Explore **advertising restrictions** on products harmful to health, with a year 1 focus on **junk food** advertising.

**Tackling the top modifiable behavioural risk factors for disease:**

- **Making Smoking History** and **Treating Tobacco Dependency**
- Developing a GM Ambition for **Alcohol**, and providing high quality, effective and efficient services for people at risk of alcohol-related harm.
- Increasing **Physical Activity** through implementation of the GM Moving Strategy.
- **Enabling access to Good Food and Healthy Weight**, with a focus on tackling childhood obesity.
- **Improving Mental Well-being** through implementation of the GM Mental Health and Wellbeing Strategy
- Improving oral Health for 0–5-year-olds /healthy living dental practices
- improving uptake of vaccinations among target groups

**Scaling up early detection and effective treatment for CORE20PLUS5**

- Increase **screening** and **early identification** of at-risk populations to detect obesity, hypertension, high cholesterol, Atrial Fibrillation (AF) and Non-Diabetic Hyperglycaemia and Diabetes sooner.
- Improve uptake, coverage and impact of **NHS Health Checks** and **NHS Diabetes Prevention Programme (NDPP)/Healthier You** and weight management programmes with an initial focus on high-risk and inclusion health groups, including people with a Learning Disability and SMI

**Optimise the treatment and medical management of CVD and Diabetes**

- Optimise the development of **Person Centred, Trauma Responsive** and **Person-Centred approaches** to care, focusing on CORE20PLUS5 adult and CYP pathways.
- **Reduce the environmental impact of emergency healthcare provision** through supporting uptake of the Green Emergency Department framework.
- Contribute to the **development of environmental and social sustainability training** to support the NHS to reach our net zero carbon targets.
- **Explore training and education options** to support healthcare professionals with understanding and awareness of healthier greener diets.

**Optimise access to Primary Care**

- Implement the [GM Primary Care Inclusion Health toolkit](#), to meet the needs of inclusion health groups.
